25X1C 4. (Confidential - JGO) Met with Frank Slatinshek, Chief Counsel, House Armed Services Committee, who told me the present plan is for departure Wednesday night for twenty some members of the Committee for Athens, Tel Aviv and Cairo returning on Saturday, 24 November. He told me we could cancel the previous request for Committee briefings but Chairman Nedzi, Intelligence Subcommittee, would appreciate being contacted by [REDACTED]

5. (Confidential - JGO) Met with Ralph Preston, Staff Assistant, House Appropriations Committee, and delivered to him the academic training report for FY 1969 through 1973. After reviewing the report, Preston asked if we would supplement it with a breakdown of the disciplines covered in the full time training. [REDACTED], OTR, has been advised.

25X1A

Preston told me the Committee will be reporting the Defense appropriation bill to the House on 26 November after their return from the Thanksgiving recess.

Preston noted in passing that the Middle East atlas had been well-received and asked if we could provide twelve more copies for Committee use.

Preston told me that no consideration was given to the intelligence community as an entity in final mark-up of the Defense budget although a small amount of R&D money was taken from DIA, the reductions assessed were overall percentages to DOD for application by DOD to the various Defense agencies. Some small amount was also taken from Cryptological Services. [REDACTED] IC, has been advised.

25X1A 6. (Unclassified - JGO) In meeting with Ralph Preston, House Appropriations Committee staff, he told me he had discussed the letter from Representative Robert Tiernan to the Administrator of NASA concerning possible duplication and other matters concerning the technology and coordination methodology between NASA and DOD on observation satellites. Chairman Morgan has taken the matter under advisement. Preston will get back with him tomorrow and see if he could get guidance for us at that time. Dr. [REDACTED], DDS&T, has been advised.
